Institute of Management Technology (IMT), consistently ranked among the top ten Indian B-schools, is committed to its vision of providing world-class management education through its academic programs and various intellectual pursuits. IMT has been continuously striving for excellence in teaching, research and industrial training.

The institute has been conducting Management Development and Training Programs for leading private and public sector organizations. These programs are designed and executed to help practicing managers to strengthen their knowledge and skills in functional areas of management and information technology by focusing on the twin objectives of conceptual learning and skill development.

Centre for Leadership Excellence (CLE) The Centre for Leadership Excellence (CLE) is focused on a broad range of activities in the areas of developing, teaching, and researching leadership. CLE enables leadership development for corporate executives through structured interventions. These interventions include Training Programs, Experiential Workshops, Certification Programs, and Long-Term Partnership Assignments. The implementation of these interventions includes experiential exercises, case studies, and simulations to ensure leadership development. CLE also helps organizations in designing the appropriate job experiences as well as individual development plans (IDPs) for their employees to ensure development of leadership skills.

About the Workshop

Leadership continues to be relevant for world-class organizations, academic researchers, as well as laymen discussions. Researchers have developed an in-depth understanding of leadership based on studies over few thousands of years. Today, there are numerous definitions and diverse approaches to understanding leadership. However, these learnings have largely not translated into application of leadership in workplace.

This workshop is application oriented. This workshop is designed for leaders who want to successfully manage their team of direct reports. It will be very useful for leaders who direct and monitor a team of diverse individuals to achieve organizational goals.

Workshop Objectives

The programme aims to

- Impart relevant knowledge about leading teams to participating leaders.
- Develop necessary understanding and skills to participating leaders for behaving appropriately with their team members.
- Provide feedback to participating leaders about their own leadership style.
- Support participating leaders in preparing developmental plan for improving their leadership.
- Contribute towards enhancing team effectiveness through improved leadership of participating leaders.

For Whom

This is an application oriented leadership workshop. This workshop will be relevant for all levels of leaders / managers who have a team of people directly reporting to them. It is also open for all functional areas across industry sectors.

Takeaways from the Workshop

- Clarifying popular myths about leadership, leadership styles, and managing teams.
- Understanding leadership and leadership styles.
- Appreciating the different leadership styles and relevance of each style.
- Understanding aspects of individuals which are relevant for leadership in a team situation.
- A detailed report about your usage of different leadership styles.

DATE: September 28-30, 2018 | TIME : 10:00 AM to 5:00 PM

VENUE : IMT HYDERABAD, INDIA

Resource Persons:

Prof. (Dr.) Apurva Sanaria – Dr. Apurva Sanaria is an Organization Development (OD) professional. Dr. Sanaria studied at IIM-Ahmedabad and completed his PhD on Leadership & Innovation from XLRI-Jamshedpur. Dr. Sanaria is a visiting faculty at reputed institutes including XLRI and TISS. He has more than 17 years of industry experience in reputed business organizations such as Kantar Group, ICICI Group and Future Group. His last corporate stint was as “Group Director – HR & OD” with IMRB International (with employees across 22 countries). Dr. Apurva Sanaria has contributed to enhancing the effectiveness of various organizations by providing consulting services including Succession Planning for Leadership Positions, Competency Mapping, Assessment & Development Centers (ADCs), Career Planning & Talent Management, 360 Degree Feedback, and Designing Performance Management Systems (PMS). He has also conducted corporate trainings including Competency Based HRM (CBHRM), Emotional Intelligence (EI), Leadership Skills Development (LSD), and Interviewing Skills for Interviewers (ISI). He has been conducting corporate trainings for Top and Middle management and provided consulting services to reputed corporates for more than a decade and trained more than 10,000 participants across organizations. He has also worked on various projects for non-profit organizations including World Bank and National Kidney Foundation (Singapore).

Prof. (Dr.) Shabnam Priyadarshini – Dr. Shabnam Priyadarshini completed her B.A. (Psychology Honours) and M.A. (Psychology) from Panjab University, Chandigarh. She later completed her PhD in Psychology from Panjab University, Chandigarh on a UGC Fellowship. She joined Centre for Management Training & Research (CMTR), Mohali in 1999 as Assistant Professor and was subsequently promoted as Associate Professor in 2005. She joined IMT Hyderabad as Assistant Professor in May 2012. She has been taking courses on Organisation Behaviour, I/O Psychology, Business Statistics, Business Research, HR Analytics during her academic endeavour. She has also been taking workshops on Business Research Methodology and the use of SPSS. Besides teaching the above mentioned courses, she has guided a number of research dissertations at PG level (MBA) in the area of Marketing and HR. She is also a qualified and accredited test administrator for MBTI, Thomas International PPA-HJA and 16PF.

Prof. (Dr.) Manoj Das – Dr. Manoj Das has an experience of over 5 years in academics. He has obtained his Doctorate from Indian Institute of Management, Indore. He has taught various courses like Retail management, Business Research, Integrated Marketing Communication, Marketing Management, Pricing Strategies, Quantitative Techniques and Services Marketing to MBA students at top-ranked B-Schools in his previous assignments. He has also conducted aptitude development courses for his students to prepare them for competitive examinations along with small workshops on Group discussions and Interview techniques. He is a firm believer in the case based teaching pedagogy as he feels it stimulates thinking and problem solving skills among students and which is a sought after trait by the companies. He also believes in small projects and simulations to be a part of his courses to give his students a flavor of real life business scenario. His research interests are in the areas of Services Marketing (specifically customer experience), Ethical dilemmas, Workplace Spirituality and Issues related to frontline employees.
